Solar Stellar Perspectives on Space Weather and Exoplanet Habitability

Florence (IT), Palazzo dei Congressi, Limonaia Room

03/11/2026

h 17.30 - 18.30

Convenors:

Camilla Pezzotti, Maria Pia Di Mauro

Invited speakers:

Raffaele Reda

(University of Rome Tor Vergata)

"The Sun as a benchmark for Star-Planet-Interactions studies"

Sylvain Breton

(INAF-OACT)

*"The Sun in time: Insights from two decades of space-borne
photometry of solar-type stars"*

Gloria Guilluy

(INAF-OATo)

"The impact of stellar activity on exoplanet atmospheric escape"
